Kerem is amazed: Did the dinosaur in the book just wink at him? There's also something going on with the Edmontosaurs: they have to flee from a hungry T-Rex. And Diego the pterosaur turns 7 today! What will his friends give him for his birthday?

The volumes of the Picture Mouse series contain four separate little stories each with lovable characters and exciting settings. All nouns are replaced by little pictures. While the stories are read out to them, the children will learn to recognize the pictures and "read" their first words.
