Kerem is amazed: Did the dinosaur in the book just wink at him? There's also something going on with the Edmontosaurs: they have to flee from a hungry T-Rex. And Diego the pterosaur turns 7 today! What will his friends give him for his birthday?

The volumes of the Picture Mouse series contain four separate little stories each with lovable characters and exciting settings. All nouns are replaced by little pictures. While the stories are read out to them, the children will learn to recognize the pictures and "read" their first words.

Henriette Wich

Henriette Wich was born in Landshut in 1970 and she grew up with six siblings and three cats. For as long as she was a child, she has been enjoying coming up with stories. After she got her degree in German language studies and Philosophy she has worked in the editorial department of children's books publishers. She has been working as a freelance author of children's and juvenile books for several years now. 11 nephews and nieces provide her with enough material for her books.
