Connect, Color, Create – A Surprise on Every Page!

With this innovative series, children can create their very own coloring book in no time! By connecting colored numbers using the classic dot-to-dot method, they reveal hidden shapes that combine into larger images. The color of each number shows how the areas should be filled in – and soon, wild tigers, speedy race cars, or beautiful princesses appear before their eyes. Along the way, children playfully practice number recognition from 1 to 20. Includes instructions and answer key. All colors match standard pencil sets for easy use.
