

Learning to Write with Tracing Grooves First Math

Illustrator: Carmen Eisendle

ab 6 years

48 Pages, 190 x 270 cm

ISBN: 978-3-7432-2151-2

Paperback

Groove-Guided Fun with Early Math.

This is something special: the first groove-guided pad to combine writing and early math skills! Here, first graders trace simple addition and subtraction problems before solving them on their own. Every page also features real-world examples kids can relate to – comparing book stacks (smaller, larger, equal), counting instruments, or halving and doubling salami slices on a pizza. Yum! In addition to exercises in the number range up to 20, First Math also offers a playful preview of numbers all the way to 100 – a delicious first step into the big world of math.

- Continuation of the bestselling Series – over 100,000 Copies sold
- Focus on essential School Topics: First Math
- Combines early Writing with basic Math Skills
- Precise Pencil Guidance thanks to pre-cut Tracing Grooves
