Up until now, Antonio has been very sure of himself: a cappuccino, one of his most charming smiles and an invitation to dinner would do the trick: the girls' hearts lay spread out before him. But somehow these tactics don't seem to work with Birte. While lots of other girls fall for his tricks, he hits solid rock with her. Has someone gotten to her and warned her? A new flirt move is urgently needed and suddenly Antonio doesn't know himself anymore...
