Groove-Guided Fun with Numbers & Shapes.

From everyday life straight into the minds of little learners: shapes are easier to remember when triangles become pyramids and diamonds turn into kites. And numbers? They're a piece of cake when paired with tasty treats! With this groove-guided activity pad, preschoolers trace familiar geometric shapes and learn to write numbers from 1 to 10. It's a playful introduction to writing, paired with a first glimpse into the world of math – all while supporting fine motor development through hands-on practice.

- Continuation of the bestselling Series – over 100,000 Copies sold
