Jana's best friend Ella has vanished. Although the Police do not think a crime is involved, Jana is quite sure of one thing: Ella would never have run away like that. She decides to start looking for her herself. In the process, things come to light that make Jana entertain serious doubts about her friendship with Ella. Furthermore, she comes into great danger, because her search brings her close to the perpetrator. Too close.

- A very promising new author
- Thrillers for girls are now firmly established market products
- Cover and contents touch on a contemporary nerve – a mood that is clearly tailored to a female readership

### **Janet Clark**

Janet Clark wrote her first novel when she was eleven. Although her one and only reader was convinced of its quality, many further paths through different countries and professions had to be followed before Janet Clark's second work was written. This was an immediate success, and since then her fan community has been growing steadily. Nowadays, the author lives in Munich, with her husband and three children.
