## THE NEW HIT FROM LOLA'S WORLD

Lola's little Aunt Lisbeth is only four years old, which makes her a very unusual aunt on account of this alone. Lisbeth knows exactly what she wants and throws herself enthusiastically into everything that happens to her. So it's not surprising that Lola has recorded so many crazy stories about her in this book. Stories about how Lisbeth learnt to talk, how her family threw centimetre parties for her, how she invented a secret nursery school friend called Itsi Be, and how the Police came to issue a missing person notice when her teddy-bear Knut disappeared.

Aunt Lisbeth has always been a hidden gem in the Lola series, and now she has made an appearance in her own right. Lola tells funny and affectionate tales to children about her little aunt in six delightful stories!
