## A little bear on a big journey!

After a little quarrel with his Mum, Benny decides to leave home and explore the big wide world. He packs his bundle and wanders off, searching for real adventures. In no time at all, he meets Josephine Fox and Fips, the squirrel, who immediately join up with him. Together, they cross the deepest puddles, clamber up the highest hillocks and encounter perilous butterflies. After so many adventures, they find they are hungry and decide to break off their round the world journey for the day, although it has not taken them beyond the garden gate. Fortunately, Mummy Bear has already baked a cake for her little explorers.

A story about true friendship and the wonderful imaginations that children have.
