Eww! What the CEO of hell needs to be able to take. Towards the end of the work day a new pile of hell newcomers lands on the desk. Halleluja! (no, rather not...). How annoying. Luckily, an interesting TV show is coming up tonight.

A hell scientiest explains how house demons came into being. And Cornibus helps him (being the best example)! But now, pay attention, we were absolutely wrong about the demon's origin. And their magnificent skills! Believe it or not, demons are a scientific sensation. At the times of Noah and his ark, things have gone wrong. AnimalicDNA arrived at hell. Well and then... you should have a look at the show yourself!
