Pirate Battle in Space!

Nano and Auros are the heirs of the Space Fighters! They possess secret super-powers and have been given a special task, that of protecting the Alliance of free planets from attack by the Black Kingdom, which aims to dominate the entire galaxy. On Agua, the water-planet, two hostile pirate crews are fighting over the precious star-gold. The Black Agents are also waiting for their opportunity, because the star-gold will make them rich and, eventually, invincible. Nano and Auros must prevent this from happening – with their Space-Fighters' super-powers!
