### Learning has never been so easy!

In this thick pad, a colorful mix of puzzles on the most important kindergarten topics awaits children aged 4 and up. Picture puzzles are followed by shape games and tasks on opposites and coherences, which are repeatedly replaced by tricky arithmetic puzzles.

That's how children get to know numbers. In a playful way, kids can practice everything they need for kindergarten. To train their concentration and comprehension skills! Thanks to the age-appropriate illustrations, these puzzles are twice as much fun.

Offering varied exercises on the most important kindergarten topics for children aged 4 and up. The newly colored tasks promote skills relevant to their age in a playful way. And bringing lots of fun!
