A rabbit with green pimples, a cockatoo with a cold, a crocodile with a tummy ache - Dr. Barrel is kept very busy in his surgery. But however different the illnesses and complaints of his patients, they all get the same prescription: a proper mixture of laughter, fun and silliness. Barrel's motto: "Laughter is the best medicine". This hilariously illustrated picture book has absolutely no side-effects and will make its way into the waiting rooms of hospitals and surgeries. The affectionately drawn characters will cause laughter even at the umpteenth reading!

Uli Geißler

Uli Geißler has worked as a journalist. Since 1982 he works as an author and writes for several publishing houses children's and adolescents' books. Moreover, he invents board-games for children and adolescents. Uli Geißler lives with his family in Fürth in South Germany.
