Secret Agent finally on vacation?!

What happens in Volume 5:

Finally time for holidays. No dangerous adventures for three weeks. But already in Lisbon, Nick and his father witness a kidnapping. Later, on a trip to Madeira, they meet a group of environmental activists who have measured strange radioactive rays. And then, an entire cruise ship disappears from the surface of the water for 15 minutes. Together with Becca, whom he met during his mission in the Himalayas, and the Portuguese environmental activist Marta, Nick begins to investigate.
