## **Story**

Safira and Raul visit their father, a botanist in the Brazilian rain forest. But when the two arrive at the research station, their father is nowhere to be found. So the children embark on a rescue mission... In every Global Mysteries title, young detectives have to solve a crime. With the help of the reader, they look for clues - at the end of each chapter there's a tricky puzzle which will bring them nearer to solving the case. Characters and plot convey information about the country in which the book is set. An appendix provides further knowledge about geography and society.
