Story

The perfect combination of excitement, fantasy and romance

The Magic of the Elements series is the perfect combination of excitement, fantasy and romance. A must for any romantasy fan! Each book tells the story of a different character.

Just before she is due to leave school, Kira’s life is turned upside-down: she is irresistibly attracted to a new student called Tim, and she keeps having strange visions and attacks of fever. Kira is afraid she is going to die, and goes underground in Berlin. But she doesn’t die – instead she finds herself in a world where magic, and power over the elements of fire, water, earth and air, are no mere superstition but a reality.
