Story

„THE SECRET LIFE OF ANIMALS” is the new realistic children's book series for readers ages 8 and up, divided into several subseries, sorted by the Earth's habitats. Each series features exciting fiction about animals and their environment, with each of the four volumes in each sub-series focusing on a different animal in a certain environment (Ocean, Forest, Savannah). Each book can be read independently.

What happens in OCEAN, Vol. 2:

It's time to say goodbye - at least for now: seal Minik and humpback whale Lottatwo have swum together all the way to Iceland, but the humpback whale has found his mates to move on with.

Minik becomes friends with a puffin that does not fly out to sea like other young birds of its kind. Minik names it "Puffling". Puffling rescues Minik from a fisherman's net, and together they set off north - following the mysterious sound and call of the Arctic.

- Fictionalized adventure stories from animals' point of view
- 'Popular Entertaining Storytelling' meets Animal Documentaries, the successful non-fiction trend translated into narrative – for the first time!
- Sub-series in different habitats: Forest, Ocean, Savannah, Jungle
- Each habitat is realized by a renowned duo of author and illustrator: wonderfully beautiful narrative voices meet touching black-and-white illustrations
