Learning to draw made easy!

Children love to draw. And with this drawing school, being creative is really fun! Step by step, children learn how they can draw vehicles, toys, their favorite animal and many other motifs in no time with very simple shapes.

On each double-page spread, a motif is explained: on the left page are instructions that work with light geometric shapes. On the right page spread, each motive is fully illustrated so that children can trace it with their pencil. Leaving also space for a drawing of your own!
