Story

Lucy has passed the entrance exam, but after the summer holidays, the sisters have another test to pass. Lucy's partner for her report on the 60s is a sweet guy called Lasse – a combination of dream and nightmare! Although Lucy simply adores Lasse, she is not under any circumstances allowed to kiss him. A kiss from her true love would put an end to her time travelling, forever. After all, Lasse could be the One - or not!

So Lucy chooses to bury herself in the work for her project with Hanna, and both find themselves at a moon landing party – all in the line of research, of course – and then at the mother of all festivals: Woodstock!
