What happens in Volume 3:

WOOM! What was that? An asteroid has severely damaged the space station's supply department. That's the reason why resources are running low and Ned, Pimm, Anna and Ypsilon have to eat jerky day in and out. Yuck, thinks Pimm. The friends have to find out quickly whether there will be a prospect of tasty food again soon. In the process, the four are accidentally beamed to a strange desert planet. How are they supposed to find their way back home? Let's just hope that the aliens of this planet are friendly!
